EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jeremy Krieger (Reg. No. 39,257) on February 4, 2005.

The application has been amended as follows:

IN THE CLAIMS:

In claim 6, line 9, the term "an opening" was deleted and replaced with --one of at least one openings--.

In claim 6, line 16, the phrase "a passage provided in the rear edge of the support plate" was deleted and replaced with --one of the at least one openings--.

Claim 17 has been canceled.

The above changes to the claims were made to clear up some ambiguous language caused by the claim amendments dated January 11, 2005 and to insure the claim language is clear with respect to which opening(s) the pressing element extends through.

Art Unit: 2854

2. The following is an examiner's statement of reasons for allowance: With respect to claim 6 in particular, the prior art of record fails to teach or fairly suggest an assembly for an offset printing machine comprising all of the structure as recited, in combination with and particularly including, a cylinder having a device for fixing the blanket including at least one hook intended to be received in *one of at least one openings* in the rear edge of the plate for applying a tension load on the rear edge of the plate and a pressing element extending through *one of the at least one openings* in the rear edge of the plate to press the front edge of the plate against the front wall of the aperture.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
